

**SAYS ANDERSON
CONTINUES TO
HALT INQUIRY**

Attorney Wants to Know Where He Got \$24,700

(By The Associated Press.)

NEW YORK, Feb. 15.—If WILLIAM L. ANDERSON, a superintendent of the Am. Saloon league, continues to hamper official inquiry into his financial records, Ferdinand Pecora, acting district attorney is "prepared to pursue the inquiry in some other way," he declared today in a letter to Edgar T. Brackett, counsel for Anderson.

Mr. Pecora expressed "grave doubts as to the accuracy" of Anderson's story of how he obtained \$24,700. to advance the league for "publicity" and of how he

The latter said Mr. Anderson told Mr. Pecora that the money represented profits on personal real estate transactions while he was head of the Maryland branch of the Anti-Saloon League. Details of the transactions had been furnished as had been the names of persons to whom Mr. Anderson had paid the money the attorney declared.

The latter made public for the first time what had been brought out in the inquiry by Mr. Pecora after O. Bertsall Phillips, former solicitor for the league had charged the superintendent with splitting commissions on contributions.

Mr. Anderson has declared that in a letter said, "that the moneys were paid out by him in currency from time to time to certain persons whose identities he will not disclose that those payments were made for publicity work on behalf of the league; that he has no vouchers or written records of any kind."

which would show the respective dates and specific amounts of such payments and that he cannot from memory give such data that he cannot produce a single copy or piece of printed matter that was used in such published work; that all such moneys came from his personal means which he did not keep in any bank, but any such desecrify him which kept in the safe of the office the league in Maryland and New York and that he made such expenditures on his own initiative and judgment and without his having consulted the board of directors of the league with regard to them."

While civic betterments are being talked about it will be worth while for someone to remember that many a house in this city is without a number or the number is so placed that it is with difficulty that any one perceives it from the street. In a number of instances there are also errors in numbering, which causes confusion to strangers. In still other instances where houses have been moved the old numbers remain unchanged.

This is not a matter of large importance but a little co-operative organized effort would soon do away with a number of errors that are now conspicuous.

St. Louis is sometimes not considered a forward city, but the result of the recent election there certainly shows that the people are thoroughly in earnest in the big improvement program. Twenty or more projects to be provided for thru the issuance of bonds

are submitted at an election and all but one had the approval of the people.

By this election bonds to the extent of \$87,000,000 were authorized. This huge sum of money spent honestly and intelligently for civic betterment will make even Chicago sit up and take notice.

The records show that in the U. S. the past year there were 12,231,445 automobiles in use. The number of motorists is increasing steadily each year and it is not unreasonable to suppose that within ten years the present number of cars in service will be doubled.

No wonder that the call for hard road systems continues and that traffic conditions in the cities are of increasing concern.

The fact that 144 Jacksonville car owners have paid the local license fee before being formally asked to do so can be taken as an indication of the existing co-operative spirit. The action also indicates that the people believe in this tax because the money has been expended judiciously in improving city streets. Many a rough pavement was given a smooth surface the past year with materials and labor paid for from this special tax fund.

CONSTITUTIONALLY AGGRESSIVE.

Aggressive but not spectacular, is the way the Republican Publicity Association describes the Harding leadership in national affairs. Commenting upon the remark of a prominent business man that aggressive leadership is needed, the Association says:

BERTON BRALEY'S DAILY POEM
IT'S UP TO YOU

By Berton Braley

JIM was just a little weak and just a little wild,
 Jack was steadygoing as a clock,
 Jim went to the city, where the blazing lights beguiled,
 Jack stayed home and went to raising stock;
 He worked and planned with clarity and won to great prosperity.

And he's a solid citizen today,
 A pattern of propriety, of wisdom and sobriety,
 An admirable sort in every way.

JIM was not successful in the city's stress and strife,
 He couldn't keep his money or his job,
 He made a mess of business and of morals and of life,
 He's just a sort of wastrel in the mob;

Weak, reckless and importunate, but he's but one more unfortunate

Who couldn't stand the gaff—and came to harm,
 And home folks who referred to him said,
 "All that has occurred to him
 Is just because he went and left the farm!"

THEY blame the wicked city for the ruining of Jim—
 But I cannot somehow view it in that light,
 For if Jack had sought the city—it would not have ruined him.

And I think he would have prospered there, all right,
 And if Jim had never blown away I think he would have thrown away

His chances for acquiring honest pelf,
 The place upon the map you are won't change the kind of chap you are,

Your destiny depends upon yourself!

"The Republican administration came into power in March, 1921, when the country was in an industrial depression, with farmers at the bottom of the depression. There were millions of unemployed, there was a tremendous inflow of aliens threatening to increase the number of unemployed; there was imminent danger of increased inflow of foreign products to the injury of home industry; there was widespread complaint of heavy taxation; there was a well organized propaganda having for its purpose the 'supreme sacrifice' of American independence for the benefit of Europe.

"That resume covers some of the problems the Republican administration has to meet. President Harding proved to be an aggressive leader. He at once called a special session of Congress, which, at his suggestion, passed measures for the special relief of the agricultural producers, who were going over the brink of bankruptcy. An emergency tariff law gave some help; a revival of the War Finance Corporation gave more help; an enlargement of the work of the Federal Farm Loan Board also contributed to the effort to save American agriculturists from the destructive effects of the kind of deflation that had been inflicted upon them; a more liberal credit policy in the Federal Reserve System did its part. The farmers of the country will testify that the sort of aggressive leadership exercised by Mr. Harding did a lot of good.

"President Harding has been an aggressive leader without being spectacular. He has led quietly and wisely, not loudly and foolishly. He has not pawed the ear, nor shaken his horns high in the air, nor allowed threats. He has not assumed possession of omnipotent virtue or omnipotent wisdom. His aggressiveness has been in performance of his own constitutional duties and not in usurpation of the duties of others. His is the sort of aggressiveness of which this country has long been in need, and that aggressive leadership has been welcomed by the people of the country."

BUSINESS OUTLOOK

(NEA)
 Grape-Hangers are routed by the news that more pig iron was made in January than in any month since October, 1920. Pigs

the word along—"the best in 27 months."

The pig iron output in January was the largest of any January ever, except in 1919 during the big boom, and even then the production was less than 4 per cent above the first month of 1923.

Do you realize that America is producing a fourth more pig iron than in 1913, the best year before the war? That's certainly getting back up to normal, and even above normal.

The old saying still holds true. "So goes pig iron, so goes general business."

Farm implement makers report that their sales are twice as big as a year ago. This is as important as big production of pig iron, for it indicates that the farmer's buying power is returning. When the farmer's buying power reaches the same level as the city man's, equilibrium will be restored to our economic system. That will have to come, before business generally can go ahead smoothly.

Rather bad export news: Less than 165 million bushels of wheat were exported last year, compared with nearly 280 million bushels in 1921. Still, in 1923, a good year, wheat exports were slightly under 160 million bushels.

And the slump in wheat exports during 1922 was partly due to Europe's increased consumption of corn as a substitute for wheat. American farmers exported over 155 million bushels of corn last year, against 129 million bushels in 1921 and an average of only 45 million bushels a year in 1909-1913.

Measured in bushels, exports of our two leading grain crops total more than twice as big as before the war, despite the "European situation."

The year 1923 has started out very encouragingly. And the outlook is reasonably good for any one content to make comparisons with normal times.

Trouble is, most of us do our comparing with the abnormally prosperous years of the war-boom, times such as will never repeat in our generation, when we were spending the Liberty Bond money—mortgaging the future.

You hear a lot of walling about how our foreign trade has fallen off since the war bubble burst. Things look less blue when you take the figures for merchandise exports from the United States and find that they compare like this:

1922 \$3,831,516,735
 1913 2,484,018,292

The gain just about matches the increase in average wholesale prices. Are we on a normal basis again without realizing it?

SATURDAY
 The Forgiveness of Sins

Son, thy sins are forgiven," Mark 2:5.

Read Mark 2:1-12.

"But to the mind of Jesus no loss which may come to the body comes to the soul by breaking the law of God."

MEDITATION: Jesus never speculated about the philosophy of sin. He regarded it as the most terrible thing in the world, for sin separates a soul from God.

HYMN: Jesus, lover of my soul, let me to thy bosom fly.

While the nearer waters roll, While the tempest still is high; Hide me, O my Saviour hide, till the storm of life is past.

Safe into the haven guide, O receive my soul at last.

PRAYER: Lord, our God, the help of those that flee unto thee, cleanse us from our sins and from every thought displeasing to thy goodness, but with a pure heart and a clear soul, with perfect love and calm hope, we may venture, to pray unto thee. Amen.

PUBLIC SCHOOL FACTS TOLD TO ROTARIANS

Address Made at Friday Luncheon By B. F. Shafer, Superintendent of Schools—Club Prepares To Observe Anniversary.

At the Friday luncheon of the Rotary club at the Pacific hotel B. F. Shafer, superintendent of schools, gave an informing address about the local school system. Mr. Shafer considered the high school, the junior high school, the ward school and the health school, giving certain facts about each of these four departments of work.

The speaker said that his statements were not merely based upon observation but upon comparative facts available and also upon the statements of representatives of the state department of public instruction and the University of Illinois.

Some interesting figures were given to show the remarkable growth of the high school since the new building has been available and also the growth of the David Prince school, known as the junior high. Mr. Shafer said that there is a good quality of work being done in the grade schools notwithstanding the fact that Jacksonville does not have a single modern grade school building.

A representative of the state department was here this week and making inspection of the building expressed surprise that the equipment was not better.

Mr. Shafer went on to explain that the board of education is now expending all the money available from taxation, and that bonds have been issued practically to the full amount possible. So he said that unless some increases in revenue could be brought about, by the extension of the school district, years must pass before much needed new grade buildings can be secured.

As a special musical feature the club had the pleasure of listening to a quartet from the high school, including Russell Deatherage, Harry Stone, Floyd Short and "Bokum" Morris.

Chester Hemphill was introduced as a new member of the club. The guest list included Harry Sargeant, Kansas City; J. M. Monker, Cameron, Mo.; Rev. F. M. Crabtree, Chapin; C. E. Wood, and T. W. Beadle, Jacksonville.

Arrangements have been made for observance of Rotary anniversary next Friday, Feb. 23. At that time the Rotarians will meet at 6:30 p. m. at the Pacific instead of at 12:15 noon.

The program will include a symposium of brief talks by members on Rotarianism. Later the club members are expected to listen to an address by International President, Ray Haynes, which is to be broadcasted from Kansas City.

YOUNG PEOPLE OPEN DISTRICT MEETING

Dr. R. O. Gammon is Initial Speaker at Conference of Delegates from Springfield of Congregational Churches—Nearly Forty Here.

Dr. R. O. Gammon of Chicago, district secretary of the Religious Education society of the Congregational church, and associate editor of the Congregationalist, delivered the opening address here last night at the Young People's district conference. He had as his subject, "Facing the Facts," and gave the assembled delegates the challenge of the present day as it comes from the home, social and school life, the church activities, and the industrial world.

The speaker said that religious prejudice must be overcome and lines of sectarianism must be broken down. In the industrial world, nothing but the practical application of the Christian spirit will solve some of the important problems. Dr. Gammon closed his address with an appeal to the young people to do something to produce practical results in meeting the situation of modern life.

Thirty-eight out of town delegates to the conference have already arrived. Thus far Waverly Congregational church has the largest delegation, twenty-three.

At the opening of the evening session, the Waverly young people gave a vespert. Other cities and towns represented at the conference are: Springfield, Decatur, Rosemond, Bunker Hill and Beards town.

The meeting last night was preceded by a supper served by the ladies' aid of the local church. A social hour followed. At the close of the meeting, the delegates were taken to homes of the members throughout the city, where they will be entertained during the conference, which closes this evening.

MANY VOLUNTARILY PAY WHEEL TAX

Indications are that it will be easier to collect the vehicle license tax in Jacksonville this year. Altho notices have not yet been sent out with reference to the 1923 licenses, 144 car owners have voluntarily made payment.

Within a short time the notices are to be sent out and Chief of Police Kiloran and men of the department will be busy with the collection work.

Last year the collection was very close to 100 per cent and the department hopes to improve even that good record.

Mr. and Mrs. T. N. Bush and daughter Marie of Finley street enjoyed a duck dinner Thursday at the home of Mr. and Mrs. W. E. Butler, south of Woodson.

"THE BUBBLE" AT THE GRAND TUESDAY

"The Bubble," by Edward Boeke, is one of the greatest comedy achievements of recent years. Louis Mann starred for one whole year on Broadway in this production, and in it scored another professional triumph.

This great metropolitan success will be staged here at the Grand Tuesday, Feb. 20th by a cast of six New York actors.

"The Bubble" reveals the age-old story of clever, seductive money-making schemes and a glib public. Many who have plunged into the whirlpool of hasty speculation have emerged richer in wisdom, but seldom in gilt-edged securities. For that reason, they appreciate the varied complications into which the elderly proprietor of a delicatessen store, his better-half, their daughter and a very likeable, young newspaper reporter found themselves after a meeting with a sleek and highly successful promoter of oil stocks.

Uproarious laughter characterized the entire play. It has been termed "a great laugh contest with everyone a candidate."

dynamiting the ruins of the Ar-
mour & Company's building to

that a modern plant probably
would be built.

Bulletins were posted this af-
ternoon at the Armour main plant
calling for 200 men to start back
to work Saturday morning clear-

signed by local contractors state
former Armour employees of the

DISCOVER EDISON'S FORTY-FIVE INVENTIONS

(By The Associated Press)

NEW YORK, Feb. 16.—The
forty-five inventions of Thomas
A. Edison which he claims were
suppressed by the navy during
the war were discovered today.

The Brooklyn Daily Eagle an-
nounced. Mr. Edison recently
asserted that he would offer no
more of his inventions to the
government and termed the navy
a "closed corporation" because
of what happened to his brain

children during the war when he
was head of the naval consulting
board.

The list of the inventions, with
he disposition of some of them,
was found in the history of the
naval consulting board by Lloyd
N. Scott. Six of the 45 were
modifications or variations of the
others.

In commenting on inventions
offered by the board to the pub-
lic, the history says that "altho
but one device received by the
board from the public (the Rug-
gley orientator designed to train

aviators in the sense of equili-
brium) was put into production
yet there were several others
which might have been used had
he exigencies of the war de-
manded them.

Mrs. Carrie A. Hayes, wife of
George Hayes of the Murrayville
community, passed away at nine
o'clock Friday morning at Passa-
vant hospital. Death came very
suddenly as Mrs. Hayes had only
been ill since Wednesday morn-
ing.

Mrs. Hayes was the daughter
of Louis and Ellen Roberts and
was born at Alsey, Illinois on

March 23, 1891. Her marriage
to George Hayes took place twelve
years ago and to this union three
children were born. One son pre-
ceded his mother in death and
two children, James and Helen
survive. The deceased is also
survived by her husband, one
brother, Ralph Roberts of Alsey,
and two sisters, Mrs. Claude
Adams, of Glasgow, Illinois, and
Mrs. Nellie Northrup of St. Louis,
Missouri.

The deceased has been a resi-
dent of the Murrayville commu-
nity for a number of years and
was beloved and respected by
her many friends. Funeral ser-
vices will be held at 2 o'clock Sun-
day afternoon at the Baptist
church in Manchester. A more
extended notice will appear later.

OPEN FRATERNITIES TO GOOD SCHOLARS

HANOVER, N. H.—High schol-
arship ought not to be a bar to
college fraternity membership, in
the opinion of E. Gordon Bill,
dean of freshmen at Dartmouth
College.

"In order to keep young," he
has written in a letter to The
Dartmouth, the college daily news
paper, "I have ridden a hobby for
several academic years, and I have
exhibited it on every possible oc-
casion to admiring but non-pur-
chasing fraternity groups. This
hobby is the thesis that is con-
sidering possible fraternity materi-
al, high scholarship should be
considered an 'activity.' In other
words, it is a plea to place
high scholarship on the same plane
with sweeping gymnasia, ground-
ers or singing divinely.

"At present if a man possesses
sufficient fat to float far, or suit-
able ancestors to allow him to
lug a lucky leg before footlights,
he is immediately up for fratern-
ity consideration; but if by the
middle of the first semester he is
known to be possessed of excep-
tionally large mental capacity, he
is apt to be avoided without in-
vestigation.

"These boys who show mark-
edly high scholarship early in
their course are almost invariably
shy and retiring. They lack
exactly what fraternities can give
them, and herein lies one of the
finest opportunities that our
fraternities have. When warmed
by social contacts their associ-
ates soon wonder how they could
have been considered 'glooms' by
those who did not know them.

"I have noticed nothing what-
ever against athletic ability, social
address or the innocuous but pop-
ular ability not to offend anyone,
nor to say anything with which
anyone could possibly disagree, as
signals for fraternity investiga-
tions, but I think it absurd that
markedly high scholarship is not
universally considered as presum-
ptive evidence of worthiness for a
fraternity consideration."

There are so many ways to serve Kellogg's Bran—the one great aid to humanity!

You will enjoy eating Kellogg's
Bran because its nut-like flavor appeals
to the taste. And, think what each
mouthful is doing to drive constipa-
tion out of your system and to re-
establish health! That's because it is
ALL BRAN. Kellogg's Bran is sci-
entifically made to relieve suffering
humanity—IT WILL DO THAT AS
NO OTHER FOOD CAN!

Physicians recommend the regular
use of Kellogg's Bran for mild or
chronic cases and as a preventive.
Bran, eaten each day and in proper
quantity, sweeps, cleanses and purifies
the alimentary tract.

Get away from pills and cathartics—
Kellogg's Bran will give you perma-
nent relief from constipation.
Do not confuse Kellogg's Bran with
a common bran. Kellogg's is cooked,

crumbled and ready to serve. It can
be used in the most delightful baking
products without in any way reduc-
ing its regulatory value. Try raisin bread
or muffins or griddle-cakes made with
Kellogg's Bran. Recipes are printed
on each package.

Kellogg's Bran is nationally cele-
brated for health's sake as a cereal—in winter
time with hot milk. Others prefer
sprinkled over hot or cold cereal.
Another way is to mix it with hot
cereals just before serving. It can
also be cooked with cereal. In each
case add two tablespoonsful of
Kellogg's Bran for each person; in
chronic cases as much with each meal.

Kellogg's Bran is sold by all grocers
and is supplied in individual packages
at first-class hotels and clubs. A
common bran. Kellogg's is cooked,

Farrell State Bank

The Bank That Service Built

We are the sole representatives of
the Midwest Joint Stock Land Bank of
Edwardsville, and will consider applica-
tions for loans on farm lands in Morgan
County at the interest rate of 5 1/2
per cent.

The Joint Stock Land Bank is or-
ganized under the Federal Farm Loan
Act which was passed by Congress in
response to a demand of the farmers
of the United States and provides a
loan system for their benefit which
is the best ever devised.

Loans are repaid in semi-annual in-
stallments, the payments spread over
a period of 3 1/2 years. Borrowers have
privilege to pay any amount they wish
after five years and may arrange for
payment before that time. The whole
loan never falls due.

A borrower need not subscribe for
stock to procure a loan. He is liable
only for his own loan. The interest
rate can never be increased but if rates
fall after five years, he can get the
lower rate.

He may borrow to purchase land,
pay indebtedness, put up new build-
ings, or for any farm improvements.

BUILDING RECORD MAY EXCEED 1922

Interesting Figures Are Given On Building Operations and Prospects By S. W. Straus & Co.

The year 1923 has started with a fair prospect of maintaining and possibly exceeding the unprecedented building record of 1922, according to a national building survey just completed by S. W. Straus and Company. Total new building and alteration permits issued throughout the country were \$294,000,000 for January.

The survey includes January building records of 215 cities, the records of 183 of which are comparable with 1922 figures. An important fact is the seasonal decline between December and January of 200 cities, amounting to \$37,228,209.

The January total of new buildings and alterations in 183 cities, was \$199,994,715 as against \$144,511,233 for January 1922, a gain of \$55,483,482 or 37 per cent. The total for January in 215 principal cities was \$216,518,170 which on a conservative basis would make the total for the whole country approximately \$294,000,000.

January comparisons show that 131 cities made gains and 49 showed losses as compared with the same month last year. Brooklyn made a larger gain than any city in the country, the amount being \$18,243,147 or 135 per cent.

Eight cities showed gains of more than \$2,000,000 between January 1923 and January 1922 as follows: Chicago, \$10,620,050; Cleveland, \$3,481,950; Detroit, \$2,549,890; Los Angeles, \$2,282,349; Louisville, \$2,998,625; New York, \$16,411,981; Philadelphia, \$2,992,780; Washington D. C. \$2,121,411.

Six other cities made gains of more than \$1,000,000 as follows: Newark, \$1,012,697; Pittsburgh, \$1,275,090; St. Louis, \$1,450,795; Springfield, Mass., \$1,035,455; Tacoma, \$1,238,334; Pittsfield, Mass., \$1,658,105.

Gains of more than \$100,000 were as follows:

Eastern Cities: Altoona, Pa., \$104,938; Atlanta City, N. J., \$562,019; Birmingham, N. Y., \$190,053; Camden, N. J., \$512,688; East Orange, N. J., \$174,765; Hoboken, N. J., \$124,836; Jersey City, N. J., \$24,235; Lancaster, Pa., \$163,925; Monaca, N. Y., \$181,275; Passaic, N. J., \$291,250; Quincy, Mass., \$145,406; Reading, Pa., \$294,275; Scranton, Pa., \$137,070; Syracuse, N. Y., \$181,474; Utica, N. Y., \$242,470.

Southern Cities: Birmingham, Ala., \$250,964; Dallas, Tex., \$518,009; El Paso, Texas, \$155,686; Fort Worth, Texas, \$473,648; Jacksonville, Fla., \$374,414; Knoxville, Tenn., \$156,786; Memphis, Tenn., \$842,675; Miami, Fla., \$115,900; New Orleans, La., \$114,700; Tampa, Fla., \$137,395; Charlotte, N. C., \$202,465.

Western Cities: Berkeley, Cal., \$156,105; Fresno, Calif., \$324,678; Long Beach, Calif., \$617,808; Oakland, Calif., \$523,033; Pasadena, Calif., \$425,738; Portland, Ore., \$389,490; Salt Lake City, Utah, \$120,425; San Jose, Calif., \$149,830; Stockton, Calif., \$110,625.

The building material price situation for the country at large did not point radically in January toward a decided increase or decrease. Prices on many materials varied according to locality, indicating influences which related largely to local stock on hand and freight conditions. Large builders who keep in close touch with prospective material prices, and who have construction projects in hand were not delaying completion of their plans with even the hope that prices will soon change to any great extent. The labor situation was improved during the month by the fact that spring contracts with various building crafts were being rapidly signed, generally upon the scale prevailing last year, with slight advances in some cities. Elimination of the old bonus system is being effected under the new contracts, and employers and unions are harmonious on the need of greater cooperation and efficiency to maintain a high production for the entire year.

INCOME TAX FACTS

No. 16.

A gift is not taxable income to the person receiving it, nor may it be deducted from the gross income by the person giving it. For purposes of the income-tax law a gift may be defined as "voluntary transfer of property, real or personal, including money, without a recompense or consideration."

While the value of the property received as a gift is not taxable, income from such property is subject to the tax for the year in which received. For example, a person who inherits a piece of property should not include in his return the value of such property, but must report the rent therefrom as income.

If however, a decedent leaves by will a legacy to a friend or relative for services rendered the bequest is considered income because there is a "consideration."

Where an executor receives a bequest conditioned upon the continuation of his duties as executor, such bequest is deemed to be compensation for his services and is taxable income to the executor.

Pensions paid employees in consideration of former services are not gifts, and must be included in income.

A tip for a personal service is not a gift, and must be reported as income by the recipient. Waiters, porters and others serving the public are advised to keep careful account of such donations.

A fee received by a clergyman for officiating at a wedding or funeral is to be returned as income, because it is compensation for services.

If a debt is forgiven without consideration, it can not be deducted because it then becomes a gift. Deductions claimed for bad debts on account of loans to friends and relatives will be carefully scrutinized for this reason that in many instances such loans are really gifts, the lender having had no expectation of repayment at the time of making the loan.

WINDOW TRIMMERS MET YESTERDAY

Discussed Plans for Window Decorations and Designs for Spring Opening.

A meeting of the window trimmers of the city was held Friday morning in the Chamber of Commerce rooms to make plans for the spring opening and window display to be held in Jacksonville the week of March 12th. The meeting was attended by a large representation of nearly all the stores in the city and all agreed to do all in their power to make this event one of the most successful of its kind ever held in Jacksonville.

The interest in the event was so manifest that a number of merchants volunteered to group themselves into committees to interview the stores not represented and impress upon their owners the necessity of co-operating in this spring affair. The question of whether or not it would be advisable to give prizes for the best window was discussed and the matter was referred to the spring opening committee for a decision.

It was also decided at this meeting that any merchants who desired to do so might have living models as a part of their opening display plans. The city officials will be requested to put the boulevard lights in the business district into good shape and have the globes washed for the opening week. The store buildings around the square will be given a spring cleaning for the event with special attention given to the washing of the windows.

In the absence of chairman G. B. Andre, Frank Plouer, president at this meeting. The committee will meet next Monday morning to discuss the different features of the window display and to make plans for managing the details of the event.

Meredosia, Feb. 16.—At the home of the bride's mother, Mrs. Louise Buescher, six miles north of Meredosia Thursday at 3 p. m. occurred the marriage of her daughter, Miss Dina, to Laurence Fricke.

Rev. Mr. Valtner, pastor of the Lutheran church, pronounced the ceremony in a most impressive manner.

At the close of the ceremony congratulations were extended after which an elaborate dinner was served to about eighty guests. The bride wore a gown of crepe de mator with silver lace and carried a bouquet of bride's roses. The maids of honor wore kownd in pink crepe and carried carnations.

The bride is the daughter of Mrs. Louise Buescher and the groom is the son of Mr. and Mrs. Henry Fricke living north of Meredosia.

The newly weds will make their home on a farm and will have the best wishes of a host of friends.

The French Club at the high school held a meeting Thursday afternoon at the close of school hours. The first number on the program was a French song sung by Lois Harney. This was followed by a talk on "French Customs," by Earl Tilton. A clever stunt was put on by Georgia Terhune and Jane Smith as the closing number of the program.

The high school students held a rousing pep meeting Friday afternoon in anticipation of the basketball game tonight with Granite City High. Members of the local team were called on for speeches and a lot of enthusiastic yells closed the meeting.

The J. H. S. Radio club will meet on Tuesday, February 20th for its next session. The following program has been announced: "Dr. Lee de Forest Speaks"—Wilbur Jewsbury.

"Static is greatest obstacle in Radio"—Ruth Leavenworth.

"The Marconi Radio Bell"—Richard Daily.

GREENE COUNTY COUPLE UNITED IN MARRIAGE

White Hall, Feb. 16.—The marriage of Wilbur Eugene Bradshaw and Miss Evelyn Piper was solemnized at 6:30 Wednesday evening in the home of the bride's parents, Mr. and Mrs. T. S. Piper, residing six miles east of White Hall. The groom is the son of Mr. and Mrs. O. D. Bradshaw of the Bradshaw Mound neighborhood, east of White Hall. The ceremony was performed by Rev. L. E. WILL PUSH PLANS FOR DOLLAR SALE

The committee in charge of the Dollar Day to be staged in Jacksonville on Tuesday, March 6, will meet Monday to push plans for this big sale event to final completion. A large number of merchants have signified their intention of co-operating in the movement and at this meeting of the committee the advertising data will be written and sent to out of town newspapers to advertise the event.

Streamers and pennants will be ordered and the committee will be assigned to the work of distributing posters and placing Dollar Day advertisements at the cross roads around Jacksonville. Indications are that the merchants of the city are preparing a large number of special offerings for this day and March 6 will be a record breaking sale day for the city.

ADVISORY BOARD OF TRAFFIC COMMITTEE

Chairman T. C. McVicar of the advisory board of the Chamber of Commerce traffic committee has called a meeting of this body for Monday, February 19, at 2 o'clock in the afternoon. Much work lies before this committee and it is the chairman's plan to close the matters up as quickly as possible in order that the city council will have an opportunity to inspect the plans for traffic regulation which are to be recommended by the committee. It will be necessary for the council to make any changes in the plans which they see fit and then return them to the committee for revision.

It will take sometime to educate the public in any new traffic regulations which may be made and it will be necessary to speed the work in order to have the regulations instituted at the beginning of the summer season. It seems to be the general opinion of those who are considering the traffic problem, that one way traffic laws will be instituted on some of the side streets in the business district. It is also probable that this will be put into effect on East and West State streets where traffic is especially heavy during the rush hours.

High 1923—103.23; low 96.96.

NEW YORK, Feb. 16.—Bullish demonstrations in the oil and copper shares, founded on higher commodity prices, sent stocks soaring to new high records in today's stock market, one of the most active of the year. While foreign news developments were again ignored, the marking up of demand sterling rates to \$4.69, the highest yet attained in more than three years, had a cheerful effect on sentiment.

Copper shares made a quick response to the further increase to 15 3-4 a pound, the highest since 1920 in the price of the red metal. Publication of statistics showing how oil companies with vast supplies in storage will benefit if the higher crude prices increased the buying of those shares. New high records for the year were made by Kennecott Copper at 41 1-4, Utah 39 3-4; Inspiration at 40 1-8; Chino at 26 3-8 and California Petroleum at 88 or nearly 3 points above the previous top price.

Baldwin and General Motors were two of the late features of the former establishing a new peak price at 141 1-2 and closing at 141 1-8 for a net gain of more than 3 points. General Motors duplicated its previous high of 1 5-8 on unconfirmed reports that the stock would be placed on a dividend basis of \$1.20 a year at next Wednesday's meeting of the board of directors.

Official reports of a continuation of record car loading had a favorable effect on the railroad shares but they still lagged far behind the industrials.

Postum Cereal, Simmons company and Westinghouse Air Brake were up 3 to 6 points. Call money opened at 5 1-4, the highest renewal rate this year and then dropped successively to 4 1-2 where it closed.

Time money was firmer the 5 percent basis being definitely established for all maturities. Out of town bankers are the principal takers of commercial paper, the bulk of the prime names commanding 4 1-2 percent.

Reports of disturbance in the Ruhr Valley had virtually no effect on the foreign exchange market.

United States government bonds again moved within narrow limits, the third 4 1-8 closing unchanged and the others showing losses of 2 to 8 cents on 100.

CLOSE OF WHEAT MARKET UNSETTLED

CHICAGO, Feb. 16.—Wheat developed a moderate degree of rallying power today in the absence of any pronounced renewal of yesterday's heavy selling on the part of the eastern holders. The close was unsettled 1-8 to 1 cent higher with May \$1.20 1-8 to \$1.20 1-4 and July \$1.15 5-8 to \$1.15 3-4. Corn finished 1-8 to 3-8 up; oats unchanged to a shade off and provisions at 2 to 5 cents advance.

Except for a rather long interval after the first hour of trading the wheat market showed an upward tendency throughout the day. The exception resulted from a limited amount of selling that temporarily was assumed to foreshadow another attempt to dispose of large quantities of wheat accumulated by a group of bulls in the east. It later became evidence that at least for the time being no such attempt was to take place. On the contrary some revival of export business at the seaboard was noted and with shorts here buying on the declines the market assumed its accent and finished near the day's top level.

A reduction of more than 20,000 bushels in estimates of the Argentine exportable surplus of wheat was given considerable attention as a bullish factor and so was comparative indifference which the Liverpool market displayed regarding yesterday's abrupt declines in America. An extension of cold weather predicted for the domestic winter wheat belt counted likewise as an aid to restoring a bit more confidence among the bulls.

Corn manifested independent strength based chiefly on lack of rural offerings here and on export buying at the seaboard.

Oats were upheld by the action of corn and wheat.

Provisions were governed by fluctuations in the value of hog.

BRADSTREET'S WILL SAY TODAY

NEW YORK, Feb. 16.—Bradstreet's tomorrow will say: "The most severe and widely extended storm of the winter has had a retarding effect on many lines of trade tending especially to reduce retail trade and even measurably affected jobbing trade in slowing down movements of road salesmen. Farm products receipts in the west and coal and raw material deliveries to Saturday have been checked and loadings have fallen off. Collections have slowed a trifle also. Coal buying has been sharply stimulated. These temporary influences have not prevented a good volume of season jobbing trade which has felt and still feels the stimulating effects of numerous shows, conventions and expositions. The larger markets generally are reported full of buyers, who are operating conservatively as the future owing to price uncertainties.

Weekly bank clearings \$6,405,107.00."

ALTON TAKES C. P. & ST. L. MEN

The Chicago and Alton is taking many employees of the Chicago, Peoria and St. Louis, who lost out by the gradual abandonment of trains by the latter company. A week ago fifty men were laid off in the train and engine service, and have been seeking employment elsewhere. The Alton has been very short of men since the cold snap set in and a number of the C. P. and St. L. employees are being given employment by the Alton. Four firemen were employed Thursday at Springfield and a number of brakemen were sent for. MISS ELIZABETH DREW MADE ADDRESS HERE

Talked Before the Jacksonville Branch of University Women—Subject was "The Trend of the Modern Drama"

Miss Elizabeth Drew, noted English writer, appeared at Illinois Woman's college yesterday afternoon under the auspices of the Jacksonville branch of the American Association of University Women, and delivered a most delightful and scholarly address on the subject of "The Trend of Modern Drama." Miss Drew is making a lecture tour of America during the season and is on her way to the western coast. Her charming personality combined with her keen intellectual insight made her address a rare event for Jacksonville's educational circles.

In the absence of Mrs. J. C. Groat, the president of the organization, Mrs. James W. Elliott presided and introduced Miss Drew. In her lecture Miss Drew compared the realistic tendency of the last generation with the romantic tendency of the present generation. She gave a keen and appreciative examination into the works of John Galsworthy, speaking of this noted English playwright as essentially a reformer rather than a great dramatic artist. Tho he has given an exact representation of the problems of modern life, he will be remembered rather for the intellectual theories which they embody, than for the human touch which is portrayed.

In speaking of the dramatic tendency, Miss Drew gave an account of the chief romantic writers in the English drama of the present day. The English genius nearly always expresses itself in romantic tradition. This is illustrated in the promise of contemporary English drama and Miss Drew took, as illustrating the fact, an examination of the recently published "Hassan," by James Elroy Flecker. This play is considered by Miss Drew as the highest achievement of dramatic art of the present day. With sweep of dramatic genius, Flecker places human beings against a background of mysticism and romance and the play loses none of its strength as depicting the solidity of the real world of men.

At the close of the lecture there was an informal reception and the members of the association had the pleasure of meeting Miss Drew. Afternoon tea was served and all the university women, except those from the University of Illinois, acted as hostesses. Miss Mary Johnston was the chairman of the hostess committee which included Miss Alida Alexander, Miss Olive Austin, Mrs. H. L. Caldwell, Miss Stella Counsell, Miss Anne Fowler, Mrs. Frank Heintz, Miss Gertrude Lobdell, Miss Merriman, Miss Ruby Neville, Mrs. Roy Nickel, Mrs. Clyde North, Miss Amy Onken, Mrs. Harry Onken, Miss Isabel Smith, Miss Swanson, Miss Grace Tickle, Miss Fannie Wakely, and Miss Harriett Whitmer.

FAIR DIRECTORS WILL MEET TODAY

Will Take up Number of Important Matters Including Catalog, Entertainments and Additional Buildings on the Grounds.

A good attendance is expected this afternoon at the meeting of the board of directors of the Morgan County Fair Association to be held at 2:30 o'clock in the Chamber of Commerce rooms. The spring season is fast approaching and the directors desire to get the detail work of the catalog, the booking of the entertainment attractions and the arrangements for the additional buildings on the grounds, under way as early as possible.

The meeting this afternoon promises to be an interesting one as plans and specifications will be drawn up for additional horse barns and grandstands to be built in the near future. Plans will be made also for the accommodation of the horse trainers who are coming here to locate as soon as the weather moderates. Final decisions will also be made today as to what attractions will be secured as the entertainment part of the fair for this year.

SPRINGFIELD MAN IS SPEAKER AT BANQUET

R. Allen Stevens D-Livers Address to Large Audience at Grace Church—Ladies Serve Nearly One Hundred Men and Boys With Fine Supper.

Between seventy-five and a hundred men and boys of Grace M. E. church gathered last evening for the annual father and son banquet in the church parlors. A committee of ladies with Mrs. B. F. Lane as chairman served a fine supper.

The principal speaker of the evening was R. Allen Stevens of Springfield, who gave a very entertaining address. He took as his subject "Nothing," and based his introductory remarks on the meaning of this word in the world. We bring nothing into the world and take nothing out of it. The rich want nothing; the poor have nothing.

Mr. Stevens then took up the remarkable change in the attitude of men toward boys in recent years. It used to be that the man who had anything to do with a boy, other than meeting his son in the woodshed occasionally, was considered a sissy. Now it is a popular thing for a father to be interested in his son, to walk down the street with him, and even associate with him in society.

The speaker emphasized the scout movement as one of the finest ways of getting in touch with the boy. He showed how the work of the scout master might make a deep religious impression on the life of the boy, while at the same time the latter is led into wholesome forms of recreation and given right ideals of character and mental attainment.

By using an illustration a skull recently discovered, which is said to be the oldest evidence of man, the speaker showed that our lives on this earth amount to about thirty seconds of the historical day of 240,000 years. He divided the day into ten thousand year hours, and showed that it was after 11 o'clock at night, well on toward the close of the period, when God first noted a sign of intelligence in the man he had made and put on the earth.

Miss Frances Brown of the Illinois Woman's college gave two readings as a part of the entertainment. G. Steffel sang a solo "The Bird with the Broken Pin-ions." Harlan Williamson gave a brief talk on "Imitators and Imitations." J. W. Brecken presided as toastmaster, and introduced Attorney J. J. Reeve, who in turn introduced the speaker on the program.

Brief talks were also made by Supt. T. V. Hopper of the Sunday school, Dr. R. V. Brokaw and Rev. T. H. Tull.

GOOD ROADS MEET TO BE HELD TUESDAY

Morgan County to Send Delegation to City Building of Road to Taylorville

A message received Friday by F. L. Mawson, member of the Morgan county board, from Representative Samuel E. Moore, stated that the Jacksonville-Taylorville hard road hearing had been arranged for next Tuesday, Feb. 20 at 10:30 o'clock A. M. Such a meeting was to have been held with Governor Small and representatives of the road department of the state last Tuesday, but the illness of Gov. Small made a change necessary.

It has now been possible to arrange for the meeting next Tuesday.

Jacksonville has a large interest in this proposed road improvement and it is to be hoped that a large delegation will represent the city and county at the hearing. Members of the county board and the superintendent of highways will of course attend, and there will be representatives of the chamber of commerce and the Morgan county good roads association and citizens generally.

The experience of the past has shown that when interest is indicated by the people along a proposed route that the project is given an impetus.

White Hall, Feb. 15.—John Fox, a prominent business man, White Hall, is pronounced practically a well man, after spending a little over two weeks in a sanitarium at Battle Creek, Mich. He has been in a somewhat dilapidated condition for year or more, and it appears that the system of dieting under which he has been working has been just the proper form of treatment in his case.
